Education

Imperial College London · BSc (Hons) Bioengineering 2024 – 2027

Programming, Mathematics, Probability & Statistics, Data Analysis, Finance & Financial Management, Business Economics, Entrepreneurship & Innovation

North London Collegiate School · International Baccalaureate, 42/45 2022 – 2024

Higher Level: Mathematics, Biology, Chemistry Standard Level: English, French, Politics

Experience

Aberdeen Group PLC · Investments Intern Jun – Aug 2026

- Designed and shipped an end-to-end automation tool (Power Apps / Power Automate) that re-engineered a manual governance process, cutting turnaround by 3 hours per request with full traceability.
- Owned a new investment product from concept to launch: structured it, selected constituents via quantitative analysis, and built the go-to-market strategy.
- Ran a cross-market process review, translating regulatory requirements into a practical, compliant framework.

3O Technology · Operations Intern Aug – Sept 2025

- Diagnosed regulatory and supply chain bottlenecks limiting a startup's ability to scale.
- Authored a data backed report that directly shaped the company's funding strategy.

Occuity · Product & Research Assistant Aug 2023

- Bridged R&D and commercial teams, turning user needs into concrete product decisions.
- Applied quantitative modelling to evaluate and de-risk design trade-offs.

Attenborough Surgery (NHS) · Clinic Administration Assistant 2020 – 2024

- Managed sensitive data in a regulated environment through the COVID-19 vaccination programme, building rigor under pressure.

Projects

- **Automated Cell Subculture System:** designed and built a sensor driven device with automated control logic (CAD, 3D printing, Arduino) to spec and budget.
- **Robotic Arm:** engineered a working prototype with closed loop, sensor based feedback control.
- **Heart Rate Meter:** built a custom PCB device applying signal processing to capture physiological data.

Skills

Programming & AI: Python, MATLAB, Arduino, LaTeX, AI agent building, Claude Code, Copilot

Automation & Tools: Power Apps, Power Automate, Excel, CAD (SolidWorks)

Analysis: Quantitative & statistical analysis, data driven decision making

Extracurricular

- Cheerleading: competitive athlete and coach, developing discipline and time management under a demanding schedule.
- Tutor: taught students aged 11 through A Level, distilling complex ideas into clear explanations.
- Manages a personal investment portfolio with an ESG and sustainability focus.
